

EPIC® MCR 24

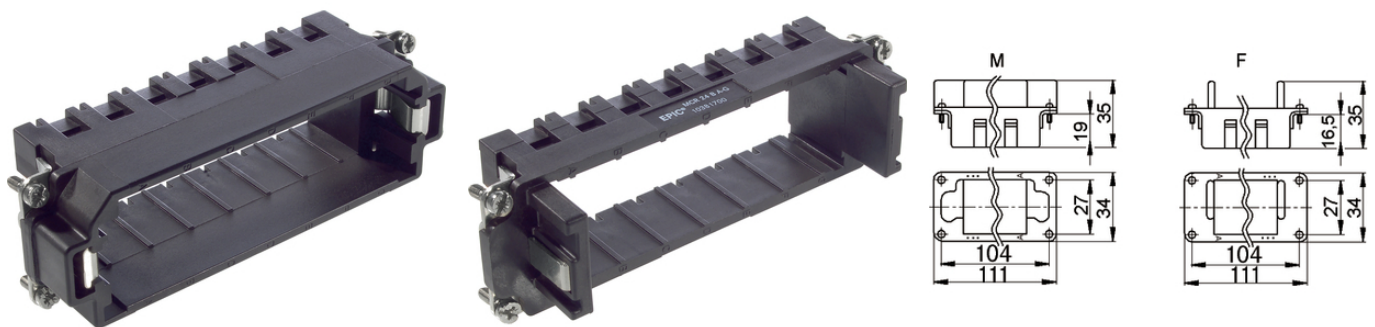

The mixed assembly guarantees high flexibility. For applications in mechanical and plant engineering, for printing machines and slide-in technology.

The frame system for rectangular connectors enables quite easy installation in connector and it is suitable in investment construction.

Info

Frame system for modules

Various functions can be used together in one connector

Wind Energy

Mechanical and plant engineering

Kompletterande automationskomponenter från Lapp

Benefits

The mix of different functions in one plug guarantees high flexibility

Assembly of individual connectors, suitable for different applications

Product features

The MCR "male" frame version is designed for use with modules with male contacts; the "female" version is designed for use with modules with female contacts
