

## EPIC® SOLAR 4 GEN2 Kontakte

Pre-assembled solar cables for weatherproof cabling of photovoltaic systems

We stay connected. This is definitely the case with our pin and socket contacts for the EPIC® SOLAR 4 GEN2 solar connectors. The crimp contact provides maximum contact reliability between the contact and the cable, and establishes a vibration-resistant connection. Suitable for conductor cross-sections of 4.0 – 6.0 mm<sup>2</sup> and automated assembly.

### Info

For photovoltaic plants up to 1.5kV system voltage

### Benefits

Crimp contact ensures maximum contact reliability between the contact and the cable and establishes a vibration-resistant connection.

Suitable for conductor cross-sections from 4.0 to 6.0 mm<sup>2</sup>.

Large packing unit with 2500 contacts on a roll makes fully automated connector configuration possible.

### Application range

For use with EPIC® SOLAR 4 GEN2 solar connectors.

### Technical Data

Material: Brass tin-plated

### Note

Photographs and graphics are not to scale and do not represent detailed images of the respective products. Prices are net prices without VAT and surcharges. Sale to business customers only.
